

An Nguyen, Dr.-Ing.

Digital Focus Topic Lead AI & Digital Assistants · Postdoctoral Researcher · AI Freelancer

Berlin, Germany · an.nguyen@live.de · [website](#) · [LinkedIn](#) · [GitHub](#) · [Google Scholar](#)

PROFESSIONAL SUMMARY

AI technical leader with 8+ years of professional machine-learning experience across industry and academia, and 10+ years including research appointments during graduate studies. Currently leading AI & Digital Assistants for Siemens Healthineers Customer Services, defining AI strategy, architecture, governance, and enterprise adoption of agentic AI, large language models, knowledge graphs, multimodal AI, and digital assistants. Ph.D. in Computer Science with an active postdoctoral affiliation, combining research excellence with hands-on delivery of production AI systems.

CORE COMPETENCIES

AI Strategy & Leadership: AI Strategy · Enterprise AI Architecture · Technical Leadership · Product Ownership · AI Governance · Responsible AI · Stakeholder Management · Cross-functional Leadership · AI Roadmapping · Technology Strategy · Innovation Management

Machine Learning & AI: Agentic AI · Large Language Models (LLMs) · Retrieval-Augmented Generation (RAG) · Knowledge Graphs · Ontologies · Multimodal AI · NLP · Explainable AI · Probabilistic Machine Learning · Time Series Analysis · Predictive Analytics

Engineering & MLOps: Python · PyTorch · TensorFlow · Azure · Databricks · MLOps · SQL · Git · Linux · Cloud & On-Prem Infrastructure · ML System Design

Product & Delivery: Product Ownership · Agile Development · Technical Program Leadership · AI Solution Architecture · Production ML Systems · Enterprise Software · Digital Assistants · Customer Service AI

Research & Healthcare: Healthcare AI · Medical Devices · Clinical Data Analytics · IoT Analytics · Process Mining · Scientific Research · Experimental Design · Technology Transfer · Research Supervision · Mentoring

PROFESSIONAL EXPERIENCE

Digital Focus Topic Lead — AI & Digital Assistants Siemens Healthineers

Jun 2024 – Present

- Lead AI strategy, architecture, and roadmap for Customer Services.
- Lead global cross-functional initiatives delivering agentic AI, LLM, multimodal AI, and digital-assistant solutions.
- Design reusable AI platforms using Azure, Databricks, knowledge graphs, semantic technologies, and on-prem infrastructure.
- Define governance for trustworthy AI, evaluation, explainability, and responsible AI.
- Partner with executives, architects, and engineering teams to translate AI research into enterprise products.

Freelance AI Engineer Independent

Mar 2024 – Present

- Build LLM, agentic-AI, and production-ML solutions for startups.

Senior Data Scientist & Product Owner Siemens Healthineers

Oct 2022 – May 2024

- Designed and deployed production ML systems processing near-real-time industrial machine data.
- Built operational-intelligence platforms with automated ticketing, monitoring, and predictive analytics.
- Co-organized an enterprise AI innovation challenge and hackathon.

Data Scientist & Product Owner (part-time during Ph.D.) Siemens Healthineers

Oct 2018 – Sep 2022

- Developed production ML solutions using IoT, enterprise, and PLM data.
- Built explainable-AI solutions for customer-sentiment prediction and operational analytics.
- Co-invented a U.S. patent for AI-driven customer-satisfaction prediction.

ACADEMIC, RESEARCH & TEACHING

Postdoctoral Researcher — University of Erlangen–Nürnberg (FAU) 2023 – Present

Supervise PhD and Master's students; healthcare-AI research.

Research Group Lead (commissarial) · Course Creator & Instructor — FAU Erlangen–Nürnberg 2018 – 2022

Led Applied ML Workgroup (PhD students, industry projects, 2019–2020). Created and taught *ML & Data Analytics for Industry 4.0 Seminar* (2019–2022), *ML for Time Series Projects* (2020–2022), and *Project ML & Data Analytics* (2020–2022). Supervised 20+ Master's theses, projects, and internships.

Doctoral Researcher — University of Erlangen–Nürnberg (FAU) 2018 – 2023

Research in machine learning for healthcare and business analytics (magna cum laude).

Visiting Researcher — University of California, Irvine 2022

Probabilistic modelling of irregular and mixed-type time-series data.

Visiting Researcher — Frankel Cardiovascular Center & Biomedical & Clinical Informatics Lab, University of Michigan 2017

ML and signal-processing algorithms for atrial-fibrillation detection from ECG data.

Peer Review — NeurIPS · IJCAI · ECML · IEEE BHI

EDUCATION

Dr.-Ing., Computer Science

University of Erlangen–Nürnberg

Magna Cum Laude · 2018 – 2023

M.Sc.Eng., Electrical & Computer Engineering

University of Michigan

GPA 4.0 / 4.0 · Top 1% · 2016 – 2017

Study Abroad — Electrical Engineering

KTH Royal Institute of Technology, Stockholm

ERASMUS+ · 2014 – 2015

M.Sc., Electrical Engineering

Technical University of Berlin

Grade 1.0 · Top 1% · 2016 – 2018

B.Sc., Electrical Engineering

Technical University of Berlin

Grade 1.4 · Top 1% · 2011 – 2016

SELECTED RESEARCH, LEADERSHIP & AWARDS

- 13 peer-reviewed publications in machine learning and healthcare AI, including ICML, UAI, IJCNN, IEEE Access, and the Journal of NeuroEngineering and Rehabilitation.
- U.S. Patent: AI-based Customer Satisfaction Prediction for Medical Devices.
- Co-founder, Siemens Healthineers Dataneers Community (300+ members); Founder, Data Science Community (300+ members).
- Reviewer for NeurIPS, IJCAI, and ECML.
- Outstanding Master's Degree Award (VDI), Fulbright Travel Grant, and Rosa Luxemburg Foundation Scholarship.
